     Sequence Name Description
                                    A 100% identical sequence to the query sequence was found:
                                                         The scores below are sorted by initial score. Significance is calculated based on initial score.
                                                                                                Number of residues:
Number of sequences searched:
Number of scores above cutoff:
